

# CGA by the Numbers:

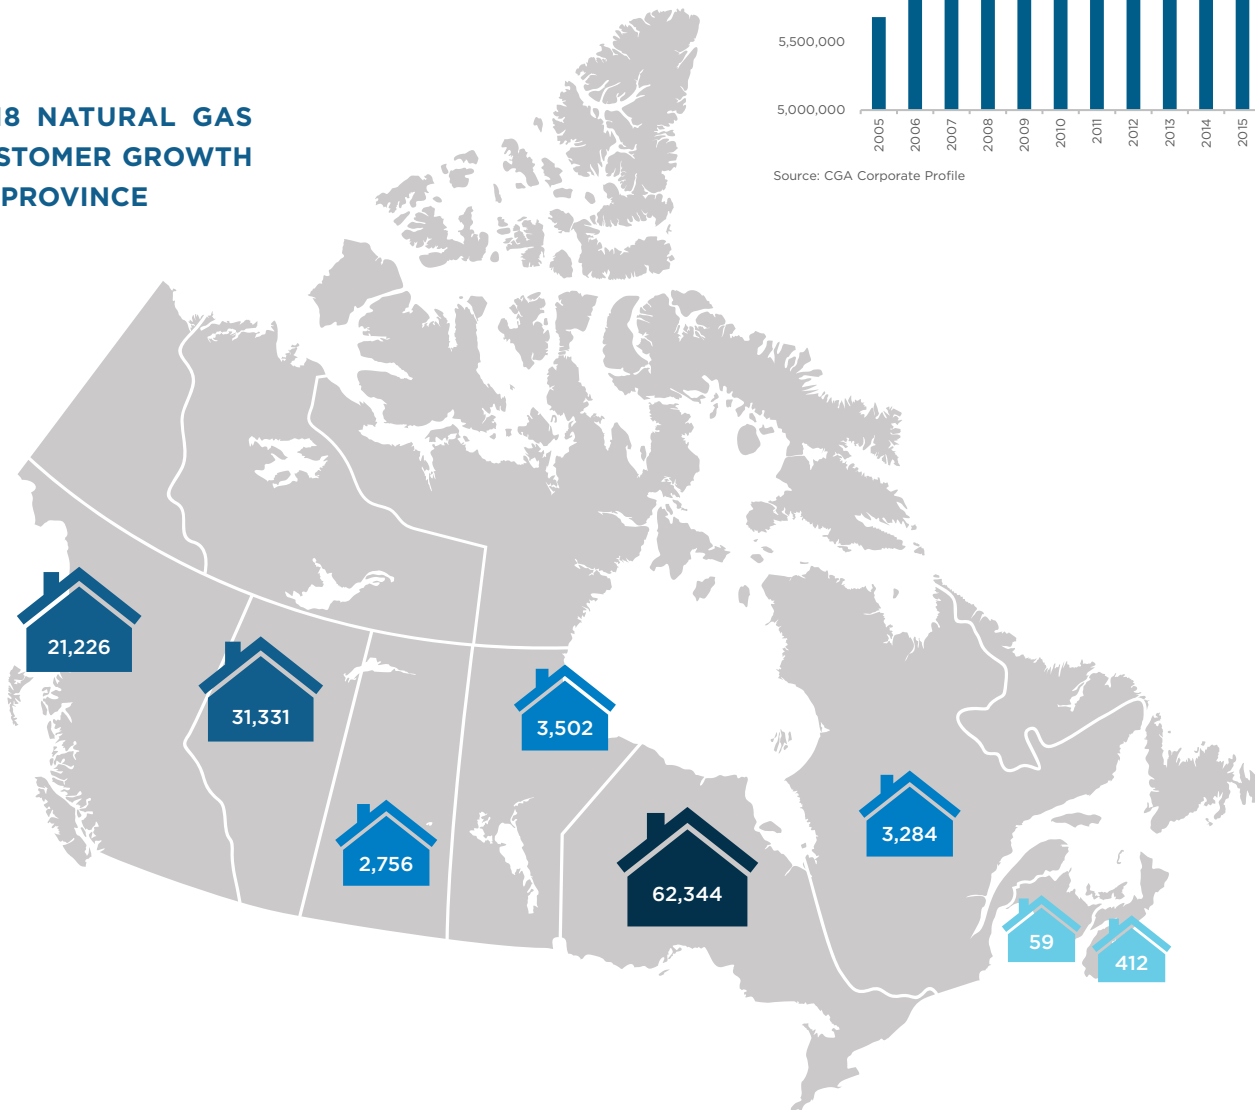

## Remarkable growth in natural gas customer base.

In this issue we highlight the remarkably strong growth seen in consumers adopting natural gas in Canada over the past decade.

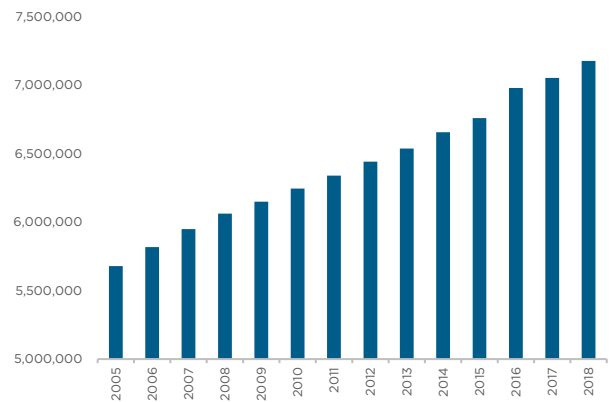

Since 2005, over 1.3 million new homes, businesses, schools, hospitals and other locations have started using natural gas. This includes a remarkable 124,000 new active customer locations in 2018 alone.

Natural gas is now the primary fuel in almost 7.2 million locations across the country, which includes over 6.5 million residential locations.
