

Blue Flame Newsletter

Fuel for thought about Canada's gas energy industry

The Canadian Gas Association (CGA) is pleased to bring you the latest issue of *Blue Flame*, fuel for thought about Canada's gas energy industry. This publication is for government, industry and public stakeholders who wish to learn more about Canada's natural gas delivery industry. In *Blue Flame*, readers learn about new projects and initiatives from sector companies, innovative technologies that are being researched or developed, and how the industry is engaging stakeholders across the country. Our publication seeks to provide the most recent statistical data, as well as insightful thought pieces on current energy issues. We give readers a view into how natural gas, our infrastructure, and our industry are foundational to Canada's increasingly important energy conversation. We hope you find the content interesting and informative. If you have any comments or questions, please contact news@cga.ca.

Data

Visit the [CGA website](https://www.cga.ca) for more information on these and other statistics the Canadian Gas Association monitors and provides.

CGA at CERAWeek 2025: An insight into the US-Canada integrated natural gas network

Fuelling North American prosperity: the integrated natural gas network

The Canadian Gas Association (CGA) is proud to highlight the vital role of Canada's natural gas industry at CERAWeek 2025. The video highlights U.S. and Canada's with 30 key cross-border connections. This network ensures energy security for both nations, delivering a steady, affordable, and reliable supply of natural gas to communities across North America. The video will be played at the Canada pavilion hosted by Natural Resources Canada.

Enbridge Gas and Enbridge Gaz Québec celebrate Winterlude

Enbridge Gas is committed to giving back to communities! In the spirit of the winter season, they have proudly supported Winterlude for almost 25 years. Hundreds of employees from the Enbridge Gas Ottawa office, as well as Enbridge Gaz Québec in Gatineau, came together to celebrate the festival, which transforms Ottawa into a winter wonderland for three weeks in February. One of the highlights of the festival is the presence of some of the world's most talented snow and ice sculptors, who create awe-inspiring masterpieces that leave many festival attendees completely speechless.

TC Energy's Cedar Link on track to deliver natural gas to the world's first Indigenous majority-owned LNG project

Construction is safely progressing on Cedar Link in Northern B.C.! Coastal GasLink made history as Canada's first natural gas pipeline to the west coast in 70 years. Cedar Link continues that extraordinary legacy and will deliver Canadian natural gas to Cedar LNG, the world's first Indigenous majority-owned LNG project in Kitimat, B.C.

FedGas unveils new brand to strengthen Alberta's rural energy future

The Federation of Alberta Gas Co-ops has rebranded as FedGas, reinforcing its commitment to rural natural gas utilities. As the trusted voice for member-owned and independent utilities, FedGas continues to champion safe and reliable energy distribution. Rooted in cooperative values, the organization remains dedicated to democratic member control and community-focused leadership. This evolution reflects a future-driven approach while honoring a legacy of collaboration. With strategic partnerships and advocacy, FedGas ensures Albertans can count on affordable, dependable natural gas—fuelling rural communities for generations to come.

EWI research evaluates the impact of high-pressure hydrogen on pipeline materials

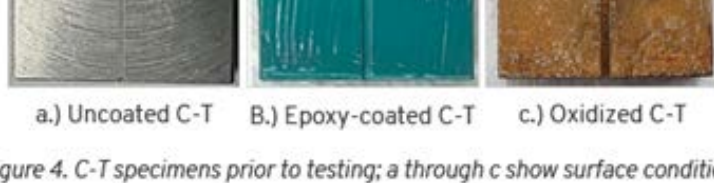

Figure 4. C-T specimens prior to testing; a through c show surface conditions

EWI conducts extensive R&D into the advancement of hydrogen as a viable energy source, including extensive testing of pipeline materials to evaluate the impact of high-pressure hydrogen. This research is outlined in a recent paper by EWI, [Influence of Coatings on Hydrogen Embrittlement in Small-scale Test Coupons](#). The report was also published in the Winter 2024/25 issue of [WELD Magazine](#).
